

VITA NOVA SALVAGE

“We bring new life to vintage finds!”

Ambrosia maple is a unique hardwood. The ambrosia beetle tunnels its way out of the freshly cut maple tree and it leaves odd-looking trails, sometimes colored orange, gray, or turquoise. This serving bar has an ambrosia maple top, which looks great when shined and preserved with polyurethane. The front and sides are tongue-and-groove pine, with a walnut stain. Two shelves on the server side allow for storage of bottles, glasses and openers. The natural wood is a timeless look that fits with any décor.

42 inches high, 50 inches wide and about 20 inches deep.
