

I pulled some nice old red oak off an old horse-feeding shed in South Asheville. The wood had seen the sun for about 35 years and had that nice black sunburned look to it. I planed it down a bit to straighten out the wood but left a lot of the black patina. I added some plumbing pipe supports and the result has the real masculine, man-cave kind of look. Would also look great in any living room or foyer. Perfect size for a TV table or entry shelves.

48 inches long, 40 inches high, about 12 inches deep. Wood is about 1 inch thick.
