

We love recycled pallets. They come in all shapes, sizes and wood colors. We made a mosaic pallet wood top, then built the base of a bar with shelves on the bartender's side. Added casters to make it easy to roll around, a push bar, and a bottle opener. The result is a great and very useful bar with that repurposed wood look.

We added a set of three metal bar stools to match the rustic look.

About 48 inches long, 24 inches deep, and 42 inches high. Sits on four 2" casters and has 3 interior shelves.

Bar Alone - \$225

Bar W/4 Stools - \$345
