

Every vintage fan needs several of these elegant phone racks made from pallet wood. Keep one on your desk, one in your living room, and of course one by your bed. All the wood is sanded smooth and has that repurposed look. I'm not sure why, but the combination of a high-tech gadget with well-worn wood is timeless. Size pictured is for a standard cell phone, \$15. Also comes in larger size for an Ipad for \$25. Order yours now, these will go out as fast as I can make them.

These are available for mail order or pick-up only, they will not be for sale at my booth at The Garage on 25 in Fletcher, NC.

About 9" tall, base is 5 1/2" wide and 5 1/2" deep. All wood is 5/8" thick.

\$15 – plus shipping if you mail order
