

I find all kinds and sizes of pallet wood. Some pieces are wide and thick enough to make table tops. Here I mixed a few good pallet pieces with some ordinary scrap lumber and made a nice trestle-leg farm table. I distressed painted the top in off-white and painted the legs aqua just for fun. The result is a nice solid craft or dining table.

About 60 inches long, 30 inches high, 30 inches wide. Easily seats up to 6.
